

Challenge:

Task 1

I would like the children to be reading at home each evening. Each week the children take home 2/3 phonics books and a guided reading book. The children can read any of these throughout the week. This will help your child improve their fluency as well as their comprehension of each of the texts. If your child has read, please can this be written into the children's home-learning diary so that they can receive their house point.
NB: Children do not need to read the whole book in one go.

Task 2

This ½ term we are going to be working on our fluency in Maths. I would like the children to practise on NumBots to help with this. Login details can be found in the front of the children's home-learning diaries but if you need another copy please see myself or Mrs Guscott.

Task 3

This ½ term we will be continuing to refine our handwriting. One of our targets is to be able to correctly write and sequence the months of the year. I would like the children to have a go at writing the first six months.

June

Task 4 - optional

For our show & tell this week I would like the children to create a poster or fact file about Queen Elizabeth II. We will be looking at her in more detail in Monday's topic lesson.

The children can share these on Friday 21st June.
